*** To The Pointe ***

“Advantages of Year Round Dance”

Its always exciting when a child masters a new skill or advances to the next class level. Dancers who are in our program year round tend to move up quicker and continually progress. It is especially important in the art of dance to come consistently and on a regular basis to keep up their technique and build strength and flexibility. We understand that many children may be doing dance just for fun, while we feel it is extremely fun it is also rewarding when one is challenged and promoted. Children gain a sense of accomplishment which is a huge confidence booster. Often times when dancers take a break it is quite common for them to lose skills that they gain throughout the year due to loss of flexibility, center, and endurance. This can be very frustrating for a dancer because it takes them the first two months in the fall to try and get back to where they were in June, all wasted time that they could be spending progressing beyond where they were in June.

****Price List for our 5 Week Summer Session ****

30 Minute Class = \$50.00
45 Minute Class = \$65.00
